

CHALLENGES IN TRANSITION CARE IN INFLAMMATORY BOWEL DISEASES

GIARDINI NAXOS

8-9 novembre 2019

BACKGROUND

The management of patients with chronic conditions, such as inflammatory bowel disease (IBD), requires specific attention and careful planning during the transition from pediatric to adult care. Early education about the transition process and the acquisition of self-management skills are crucial to fostering independent adolescents and young adults who have the knowledge and tools to manage life with a chronic disease. A growing body of literature describes the challenges and barriers to providing adolescent and transition care. Potential barriers to

effective transition include the following: differences between adult- and pediatric-onset IBD; patients' lack of developmental maturity and readiness, self-efficacy, and knowledge of the disease; poor adherence to therapy; adolescent anxiety and depression; differences between pediatric and adult IBD care and parental and provider reluctance to transition. Outcomes data on adolescents with IBD are limited, and there are even fewer data on how the transition of care affects long-term treatment and outcomes. This meeting through the experiences of adult and pediatricians will try to answer many questions regarding the clinical management and transition process.

COORDINATORS

Ambrogio Orlando, Palermo
Claudio Romano, Messina

FACULTY

Marina Aloï, Roma	Giuseppe Frieri, Roma	Ambrogio Orlando, Palermo
Patrizia Alvisi, Bologna	Walter Fries, Messina	Claudio Papi, Roma
Alessandro Armuzzi, Roma	Daniela Knafelz, Roma	Giuseppe Penna, Milano
Serena Arrigo, Genova	Salvatore Leone, Direttore Generale AMICI	Antonino Carlo Privitera, Catania
Amir Assa, Tel Aviv	Paolo Lionetti, Firenze	Sara Renna, Palermo
Maria Cappello, Palermo	Fabio Salvatore Macaluso, Palermo	Claudio Romano, Messina
Fabiana Castiglione, Napoli	Girolamo Mattioli, Genova	Carmelo Romeo, Messina
Andrea Centritto, Messina	Giovanni Mazzola, Palermo	Gaspare Solina, Palermo
Nadine Cerf-Bensussan, Paris	Erasmus Miele, Napoli	Maurizio Vecchi, Milano
Tamara Caldaro, Roma	Giuseppe Navarra, Messina	Anna Viola, Messina
Dario DiIillo, Milano		

SCIENTIFIC COMMITTEE

Walter Fries, Messina
Giuseppe Navarra, Messina
Ambrogio Orlando, Palermo
Claudio Romano, Messina
Carmelo Romeo, Messina

PROGRAM

Friday, 8 November 2019

14.00 - 14.15 Greetings authority

14.15 - 14.30 Introduction

I SESSION: EARLY and LATE ONSET IBD

Chairmen: *W. Fries, P. Lionetti*

14.30 - 15.00 Lecture: Epidemiology in Inflammatory

Bowel Diseases: children and adults data

D. Knafelz, G. Frieri

15.00 - 15.20 Clinical Case – Early onset

S. Arrigo

15.20 - 15.40 What is very-early-onset inflammatory

bowel disease

M. Aloï

15.40 - 16.00 Genetic of EO and VEOIBD: what the

clinicians need to know

N. Cerf-Bensussan

16.00 - 16.20 Novel and tailored therapies for IBD, such

as stem-cell transplantation

A. Assa

16.20 - 16.45 Discussion

16.45 - 17.00 **Coffee break**

II SESSION: CLINICAL MANAGEMENT

Chairmen: *M. Cappello, A. Privitera*

17.00 - 17.30 Lecture: Mucosal Immunity and microbiota:

new insights

G. Penna

17.30 - 17.50 Clinical case

A. Centritto

17.50 - 18.10 A comparison between adult and pediatric

diseases activity scores

P. Lionetti

18.10 - 18.30 Histological pattern: adult versus children

A. Orlando

18.30 - 18.50 Nutritional management: important only

for children?

E. Miele

18.50 - 19.15 Discussion

PROGRAM

Saturday, 9 November 2019

III SESSION: CROHN'S DISEASE

Chairmen: *P. Alvisi, F. Castiglione*

08.30 - 09.00 Lecture: Personalized Medicine: individualizing

treatment options for each patient with IBD

A. Armuzzi

PROGRAM

Saturday, 9 November 2019

09.00 – 09.20	Clinical Case <i>D. Dilillo</i>
09.20 – 09.40	Old and new biologics, small molecules: evidence in adults and perspectives in children <i>F.S. Macaluso</i>
09.40 – 10.00	Management of Mild Crohn's Ileitis <i>C. Papi</i>
10.00 – 10.20	Biosimilars in pediatric IBD <i>C. Romano</i>
10.20 – 10.40	Discussion
10.40 – 11.00	Coffee break

IV SESSION: ULCERATIVE COLITIS and SURGERY

Chairmen: *C. Romeo, M. Vecchi*

11.00 – 11.30	Lecture: Sub-optimally controlled moderate-to-severe ulcerative colitis: understanding risk factors and improving outcomes <i>A. Orlando</i>
11.30 – 11.50	Thiopurine use in Inflammatory Bowel Disease: adult vs pediatric patient <i>W. Fries</i>

11.50 – 13.00	Round Table: Bridging medical and surgical therapy in children and adult <i>T. Caldaro, G. Mattioli, G. Navarra, G. Solina</i>
---------------	---

13.00 – 14.00 **Light Lunch**

V SESSION: THE TRANSITION OF CARE with the AMICI Italy support

Chairmen: *A. Orlando, C. Romano*

14.00 – 14.30	Lecture: When and How to refer a patient to adult care <i>C. Romano</i>
14.30 – 14.50	Vaccination strategies in transition program <i>G. Mazzola</i>
14.50 – 15.10	Risk of sexual dysfunctions in patient with IBD <i>A. Viola</i>
15.10 – 15.30	Treatment of the pregnant IBD patient with Active Disease <i>S. Renna</i>
15.30 – 15.50	The role of patients associations <i>S. Leone</i>
15.50 – 16.30	Panel Discussion: Quality improvement of Transition of care in Italy, <i>P. Alvisi, A. Armuzzi, W. Fries, A. Orlando, C. Romano</i>
16.30 – 16.40	Conclusions
16.40 – 17.00	Verifica dell'apprendimento

INFORMAZIONI GENERALI

SEDE

RG Naxos Hotel

Viale Jannuzzo 47

98035 Giardini Naxos (ME)

ACCREDITAMENTO ECM

L'evento è accreditato dal Provider nazionale Health Meetings Group Srl (6083-270260 Ed. 1) per la figura professionale del Medico Chirurgo nelle discipline di Gastroenterologia, Medicina Interna Chirurgia Generale, Chirurgia Pediatrica, Pediatria, Pediatria (Pediatri Di Libera Scelta).

L'evento prevede l'assegnazione di **n. 11 crediti formativi**.

SEGRETERIA ORGANIZZATIVA

Health Meetings Group Srl
